Online Purchase Order

Reference : Sample #2

Product iD	Product Name	Quantity	Price ea	Sub Total
Redesign	WEBSITE - DESIGN - Redesign an Existing Website <i>This is if you have an existing website and want it redesigned. This fee covers creation of the new website design / layout ONLY. It does NOT include any content or any additional features and does not include any website hosting.</i>	1	\$ 300.00	\$ 300.00
AddPM	WEBSITE - CONTENT - Additional Pages REQUIRES Product Manager <i>If you have also purchased the Product Manager, (which generates Dynamic Product Pages) then requesting additional pages to be added is cheaper than Hard Coded pages. Dynamical Generated pages do not exist on the server, instead they are generated from database information upon each request.</i>	50	\$ 30.00	\$ 1,500.00
ver1 Cpn	WEBSITE - FEATURES - Coupon Editor <i>A Coupon is a quick and efficient way of advertising specials or discounts that are available for a range of products. It can be integrated into the News Headline module and to the Newsletter module. It works in conjunction with the Purchase Order Request Form and can provide one of three styles of Discount</i>	1	\$ 150.00	\$ 150.00
ver1 FrmC	WEBSITE - FEATURES - Contact Us / Feedback Form <i>Provides a Contact / Feedback form which sends the information via email and stores it to the database.</i>	1	\$ 150.00	\$ 150.00
ver1 News	WEBSITE - FEATURES - News Bulletin Manager <i>Provides you the ability to add and manage News Bulletin on your website. You can quickly and easily add, edit or manage News entries.</i>	1	\$ 200.00	\$ 200.00
ver1 PDis	WEBSITE - FEATURES - Price Display <i>This will automatically display the retail prices seen on the Purchase Request Order Form on your products web pages. So if you make changes to your prices on the order form the web pages are also updated instantly.</i>	1	\$ 50.00	\$ 50.00
ver1 POR	WEBSITE - FEATURES - Purchase Order Request Form REQUIRES Product Manager <i>Allows people to submit Purchase Orders from your website. It does not generate Invoices and does not process credit cards or ask for payment. Ideal for bulk or Dealer Ordering. Some of the Key Features:</i>	1	\$ 1,800.00	\$ 1,800.00
ver1 PPM	WEBSITE - FEATURES - Product Manager <i>Allows you to manage your website content and what products appear on the Purchase Order Request Form. Features include:</i> - change Online Status. Easily add or remove products from the website - change Purchase Order Status. Easily add or remove products from the order form - change prices - change or update each products web page. <i>Purchasing this will make it cheaper for us to add pages to your website now and in the future</i>	1	\$ 1,500.00	\$ 1,500.00
ver1 SMap	WEBSITE - FEATURES - Site Map <i>A Site Map allows people to see a list of all pages that are available from your website all on a single page. This is ideal for search engines so they can locate all your content or for users who could not find what they were looking for using website search.</i>	1	\$ 75.00	\$ 75.00
ver1 WSrch	WEBSITE - FEATURES - Website Search <i>Allow viewers to search your website for key words or phrases. Viewers can choose from three different search methods. All words, Any words or As Phrase. This website search feature does NOT use google. The main benefit in this is if changes are made to any pages on your website this search engine knows about it instantly. Unlike Google search that may take days to check your website.</i>	1	\$ 100.00	\$ 100.00
			Total GST	\$ 0.00
			TOTAL	\$ 5,825.00
